Coma d'en Pou

2020

WEATHER REPORT Autumn with good rains. Important anticyclone between late December and mid-January, with abundant fogs and night frosts. Gloria storm passed the week of January 20, with some damage. Dry February and very rainy spring. Dry summer without significant rains. The vine begins to sprout between the second and third week of March. At the beginning of April the whole vine is already sprouted. Between May 15 and May 30 the vineyard flowers and by mid-June the grapes are already pea-sized. Veraison at the end of July. We start the harvest on August 18. An abundant total rain of 702 liters. Rainy and humid year with mildew affectations that fortunately we were able to control.

LA COMA D'EN POU The property called "Les Comes d'En Pou" is situated at the east of Gandesa, at the stirrups of "La Serra de Cavalls". A "Coma" in Catalan means a depression or valley shallow in mountain areas. Our property of "La Coma d'En Pou" has 10 ha, distributed among vineyards, olive groves and scrub. The soil has an elevated proportion of lime and active presence of eroded conglomerates.

VARIETY We speak about "Grenaches in harmony", because it is a plantation where we find mixed clones and different types of Grenaches, as was done in the past, including black Grenache, hairy and a little red grenache. It is harvested and vinified together. (Field Blend). Organic and dry farming.

HARVEST Manual, between 12th - 14 september 2020.

WINEMAKING PROCESS Fermenting in open barrels and in stainless steel tanks in its own yeasts. Macerate with the skins for two weeks. A small part is vinified with the stems. Subsequent aging in 500-liter French Allier oak barrels of 400 and 500 liters for 16 months.

PRODUCTION 1889 bottles de 0'75 l., 125 Magnums y 6 double Magnums.

BOTTLED 23th and 24th february 2022.
